

# Directorio CTEF

de Contratistas que cuentan con Instaladores de Revestimientos Cerámicos  
Certificados por la CTEF

No importa qué tan grande o pequeña sea su obra, los Instaladores de Revestimientos Cerámicos Certificados por la CTEF son los especialistas en instalación que usted necesita para transformar su visión en una realidad. Utilice este directorio para buscar un contratista de revestimientos cerámicos comprometido con ofrecer colocaciones de calidad – un contratista con instaladores que tengan los conocimientos, habilidades, y experiencia necesaria para certificarse con la Fundación para la Educación en Revestimientos Cerámicos (CTEF).

Versión 2011.5

# Sus planes realizados... de manera excepcional

Los colores y los esmaltes, las piezas decorativas, los diseños... estos son los detalles que hacen que su proyecto sea único. Cumpla sus expectativas de obtener una excelente instalación buscando a un contratista que tenga instaladores detallistas que aman su trabajo.

La Fundación para la Educación en Revestimientos Cerámicos (CTEF) ha certificado a esos instaladores para que usted pueda identificar a los contratistas que tienen la capacidad de entregarle la calidad que usted exige.

Ahora más que nunca, estamos conscientes de la importancia de que el trabajo quede bien haciéndolo la primera vez. No hay tiempo para errores costosos ni reparaciones lentas y demoradas. Los instaladores certificados tienen que aprobar exámenes escritos sobre las mejores prácticas y normas de instalación, y sus habilidades prácticas están verificadas personalmente por los evaluadores de la CTEF.

Para encontrar un contratista que tenga instaladores certificados por la CTEF, pase a la página siguiente para usar el directorio por estados, o vaya a [www.tilecareer.com](http://www.tilecareer.com) para obtener la lista de contratistas actualizada.

Así de fácil... si tan sólo todos los oficios de acabados tuvieran un método de asegurar que sólo trabajadores calificados estarán haciendo el trabajo.

***“Encontramos a Artcraft Granite, Marble, & Tile Co. a través del sitio CTEF en Internet. Después de numerosos problemas con instaladores no certificados, estamos muy contentos con su profesionalismo y sus colocaciones. Gracias a la CTEF por proporcionar esta valiosa herramienta para la industria de revestimientos cerámicos.”***

**Wade Pasch  
Gerente General, Source One**

## Cómo usar este directorio

Contacte a los contratistas de revestimientos cerámicos de la lista del estado donde se encuentra su obra, o busque contratistas de otros estados bajo el símbolo regional **R** o nacional **N** del nombre de su empresa.

Este directorio también identifica el tipo de trabajo que realiza el contratista (comercial **C** o residencial **RS**) y el número de instaladores certificados que puede ofrecer. Verifique por referencia cruzada, en la lista de instaladores certificados por orden alfabético, para asegurar que los instaladores que le envíen a su obra estén certificados por la CTEF.

Los directorios de contratistas e instaladores se actualizan continuamente en [www.tilecareer.com](http://www.tilecareer.com).

## Sobre la certificación

La CTEF empezó a certificar a los instaladores para proporcionar un medio unificado a nivel industria, donde se pudiera identificar a los instaladores que trabajan con calidad. A diferencia de otros gremios, la instalación de revestimientos cerámicos no está reglamentada en el nivel de los instaladores. Aunque algunos estados requieren que los contratistas tengan licencia, no tienen requisitos para sus instaladores en cuanto a un nivel específico de conocimientos, habilidades, o experiencia. Cualquiera que tenga unas cuantas herramientas manuales puede decir que coloca revestimientos cerámicos, sin jamás haber aprendido el oficio.

Por todo lo anterior, conseguir un buen contratista puede ser todo un reto. Desde luego que usted quiere el mejor precio posible pero, ¿cómo asegurarse de estar comparando presupuestos

***“Quedé muy contenta con el valor agregado de esta obra. Mi cliente era muy especial y quería lo mejor... el piso de piedra salteada necesitaba una junta muy pequeña sin alturas irregulares. Un instalador certificado me inspiró confianza para contratarlo aunque fuera nuevo, y fue extraordinariamente cuidadoso con los detalles. Los instaladores certificados que escogí trabajaron con eficacia, entregándome a tiempo y utilizando los productos adecuados, y su profesionalismo y conocimientos rebasaron mis expectativas.*”**

**Mary Jane Fabiano  
Samuel Designs, Grand Rapids, MI**

***“Nosotros contratamos [a un contratista que tiene Instaladores de Revestimientos Cerámicos Certificados] para la gran mayoría de nuestros trabajos. Ahora que sus instaladores están certificados por la CTEF, le estaremos dando más trabajo debido a la educación continua de sus instaladores. Obras sin problemas = trabajos bien hechos y ganancias sólidas. Sigán adelante con la misma calidad, CTEF.*”**

**Dale Marr, Director General y Director Ejecutivo, Concord Construction Companies**

de contratistas que sólo tienen instaladores capacitados y profesionales?

Eso es justamente lo que hace la certificación de la CTEF.

Utilizar los productos adecuados y instalarlos correctamente son requisitos fundamentales para que el revestimiento cerámico permanezca intacto y nunca dé problemas. Los exámenes de la CTEF tienen como requisito indispensable que la instalación se vea increíble y que esté hecha para durar. Los evaluadores de la CTEF califican la apariencia del trabajo del instalador y luego deshacen el módulo de la prueba para valorar si el instalador aplicó las técnicas de instalación correctas, enfocándose a eliminar los errores más serios de la instalación. Visite [www.tilecareer.com](http://www.tilecareer.com)

para ver la diferencia entre los trabajos que aprueban el examen y los que son reprobados.

La certificación de los instaladores ha sido posible gracias al apoyo de todos los segmentos de la industria. Fabricantes de revestimientos cerámicos y de materiales de instalación, asociaciones de contratistas, distribuidores, y asociaciones del gremio proveen los fondos, productos, e instalaciones necesarias para practicar los exámenes. El Consejo de Administración de la CTEF está integrado por los representantes del Consejo Cerámico de Norteamérica, la Asociación Nacional de Contratistas de Revestimientos Cerámicos, Revestimientos Cerámicos de España, Confindustria Ceramica, D&B Tile, Schluter Systems, y USG. Consulte la contraportada si desea ver la lista de los patrocinadores financieros.

# Instalaciones prestadas para los exámenes de certificación

Agradecemos a las empresas patrocinadoras que hacen posible la certificación de instaladores

La Fundación para la Educación en Revestimientos Cerámicos (CTEF), desea reconocer y agradecer a las empresas que demostraron su solidaridad con la calidad de las colocaciones cerámicas, al ofrecer su espacio y recursos para la impartición de los exámenes de certificación para instaladores. La CTEF los invita a ser clientes de estas empresas—han sido las primeras en adelantarse a apoyar la calidad de las colocaciones por medio de la certificación de los instaladores.

Gracias a su generosidad, la CTEF pudo impartir sus exámenes en las zonas donde vivían los instaladores, facilitando su acceso y reduciendo al mínimo el costo de sus gastos de viaje y el tiempo que pasaron fuera de su trabajo.
